Notification Form Regarding Evaluation of Patient by Physician

In the state of Texas, acupuncture and Oriental medicine is not considered "primary health care". As a result, BackBone Wellness Center is required to have you respond to the following statements before you may be treated. Please be advised that we will not be permitted to treat you with acupuncture if your response to all of these statements is no.

(Pursuant to the requirement of section 183.6 (e) of this title and section 6.11, Subsection (d) V.A.C.S. article 4495b, governing the practice of acupuncture)

I (patient name), _____ am notifying BackBone Wellness Center of the following:

Yes No I have been evaluated by a physician or dentist for the condition being treated within twelve (12) months before the acupuncture was performed. I recognize that a physician should evaluate me for the condition being treated by the acupuncturist.

OR

Yes No I have received a referral from a chiropractor within the last 30 days for acupuncture. The date of the referral is _____, and the most recent date of chiropractic treatment prior to acupuncture treatment is _____. After being referred by a chiropractor, if after 60 days or 20 treatments, whichever comes first, no substantial improvement occurs in the condition being treated, I understand that the acupuncturist is required to refer me to a physician. It is my responsibility and choice to follow this advice.

OR

I have not been evaluated by a physician or dentist for the condition being treated, nor have I received a referral from a chiropractor, but I seek treatment for one of the following conditions:

Informed Consent to Oriental Medical Health Care at BackBone Wellness Center

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible) by Marsha Kaye L. Ac. or other licensed acupuncturists who now or in the future treat me at BackBone Wellness Center.

I understand that methods of treatment may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, Tui-Na (Oriental massage), Oriental herbal medicine, Ionic Foot Detox, and nutritional counseling. I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally and in writing. The herbs may be an unpleasant smell or taste. I will immediately notify a member of the clinical staff of any unanticipated or unpleasant effects associated with the consumption of the herbs.

I have been informed that acupuncture is a generally safe method of treatment, but that it may have some side effects, including bruising, numbness or tingling near the needling sites that may last a few days, and dizziness or fainting. Bruising is a common side effect of cupping. Unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although the clinic uses sterile disposable needles and maintains a clean and safe environment. Burns and/or scarring are a potential risk of moxibustion and cupping. I understand that while this document describes the major risks of treatment, other side effects and risks may occur. I further understand that I need to stay still while the needles are in place to prevent injury or trauma to my body. The herbs and nutritional supplements (which are from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Oriental Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effect of taking herbs are nausea, gas, stomach ache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue. I will notify a clinical staff member who is caring for me if I am or become pregnant.

I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known is in my best interest. I understand that results are not guaranteed.

I understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
